Dear Cavitt Parents,

Cavitt science students participate in many hands-on activities that reinforce the concepts they learn in class. These activities require the purchase of many consumable items. Monetary donations that are made through the Eureka Schools' Foundation and PTC are an invaluable part of our program but are shared throughout all departments and enrichment classes. Additional donations that support your child's core science class experience are much appreciated.

Please note, that all donations are voluntary. We value any material donations that your family may be able to provide. It truly helps offset some of our department costs.

If you would like to contribute material goods, you may send them to school with your student. In lieu of buying products, if you would like to contribute monetarily to the department activities fund, your checks can be made out to **Cavitt Jr. High**.

Thank you in advance for your help and support!

The Cavitt Science Department

**Science Items Needed (items in bold are in greater need)**
